

CHEMICAL COMPLIANCE – NORTH AMERICA

Manufacturers, importers and processors placing substances on the market are confronted with increasingly complex chemical regulatory requirements. In North America, the United States' Toxic Substances Control Act (TSCA) and Canada's Environmental Protection Act (CEPA) require regulatory assessment and compliance. Landbell Group offers tailored consultancy services that best address the needs of each organisation in alignment with their chemical management and circular economy strategy.

OUR SERVICES

Providing tailored consulting services for chemical control regulations across North America, including:

- Strategic Analysis and Gap Assessment
- Notifications for New Substances
- Chemical Management for Existing Substances
- Screening of R&D substances for potential risks
- Compliance audits, training and ad hoc support
- Acting as a secondary agent

Chemical Substance Support includes:

- TSCA Inventory Assessment and "Active" Designation
- Evaluation against CEPA's Domestic or Non-Domestic Substance Listing
- **Preparation of robust regulatory submissions, including:**
 - TSCA's Premanufacture Notice, Low Volume Exemption, Notice of Commencement, and Significant New Use Notices
 - CEPA's New Substance Notifications, Notices of Manufacture/Import or Notice of Excess Quantity
- Managing data assessment & gaps including modelling
- Consultation with EPA or CEPA before and after submissions
- TSCA: advice and determination of obligations for chemical import/export, support for Significant New Use Rules, submission of Bona Fide request, and assisting with chemical data reporting (CDR-2020)
- CEPA: determination of eligibility for CEPA's Reduced Regulatory Requirements (RRR) and Significant New Activities (SNAC)

OUR EXPERTISE

- Project management excellence
- Use of the same modelling programs as EPA to assess new substance's hazards
- Extensive experience of hazard and risk assessment (modelling, testing and study management)
- Element1: targeted software solutions that enhance productivity and sustainable processes
- High number of direct referrals and expansion of services to clients demonstrates our value proposition

PROCEDURES

GENERAL

- Project management approach with a single point of contact
- Adapted IT systems and tools

ANALYSIS

- Client engagement, identification of obligations, situational analysis, strategic planning

ASSESSMENT

- Gap assessment and customisation, resolution of options, development of project plan, budget and business impact analysis

Future proof product portfolios

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
