

CHEMICAL COMPLIANCE – EU REACH

Placing obligations on manufacturers and importers of chemical substances and mixtures, the Registration, Evaluation and Authorisation of Chemicals (REACH) Regulation requires a thorough understanding of the complex requirements, deadlines and obligations.

Landbell Group offers strategic and operational support to meet all REACH requirements.

OUR SERVICES

Inventory and Strategy: Determining obligations and potential approaches to compliance (with financial planning)

Registration: Submitting registration dossiers (or applying alternative compliance approaches)

Gap Assessments: Reviewing current compliance programmes and resolving issues

Authorisation: Authorising certain Substances of Very High Concern and progressively replacing with less hazardous alternatives

Substance Information Exchange Forum: Managing all communication, contractual and financial aspects so lead registrants can allow other parties to join a substance registration

Maintenance: Managing data, communicating with customers, and updating dossiers

Substance Tracking: Keeping customers informed of current and future obligations or changes required to product design

Additional Services: Staff training and awareness; communications with customers and suppliers; Only Representative model for non-EU companies to take on REACH obligation from importers.

OUR EXPERTISE

- Market-leading experience in REACH and EU chemicals compliance
- Multi-disciplinary team with expertise in chemistry, toxicology, ecotoxicology, industrial hygiene and supporting sciences within a vast array of industries

- Assure continued market access
- Help manage regulatory changes including the potential impact of Brexit on supply chains

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
