

CHEMICAL COMPLIANCE – INTERNATIONAL REGULATIONS

The chemical regulatory arena is changing rapidly. Companies shipping worldwide need to keep up to date with the changing regulations, and different regions or countries have their own specific registration / notification requirements that companies must adhere to in order to maintain compliance.

Landbell Group determines where obligations may exist within customers' supply chains and ensures timely execution of the requirements. Our experts help companies comply with the laws and regulations relating to the placing on the market of new and existing chemical substances in Asia, Australia, Europe and North America.

OUR SERVICES

Program management: Tracking the main requirements based on the client's portfolio and target international markets to determine obligations and timely execution through a single point of contact

Scope: Determining various considerations for a particular country including registration/notification, reporting and safety data sheet requirements, exemptions, and thresholds, and reviewing inventory databases

element1™: A specific module within Landbell Group's proprietary compliance platform, element1™, for managing and tracking international regulations

Global management: monitoring an ever expanding list of more than 20 countries which are introducing chemical control laws globally.

OUR EXPERTISE

- Multi-disciplinary team with expertise in chemistry, toxicology, ecotoxicology, industrial hygiene and supporting sciences within a vast array of industries
- Over 300 satisfied clients internationally
- Global network of partners to assist with execution of obligations

PROCEDURES

- Assessment of obligations and strategic advice
- Use of element1™ for substance and regulatory tracking at country level
- Documenting requirements into a regulatory tracking space
- Populating substance obligations into element1™
- Project and cost management
- Preparation and completion of registration/notification obligations

CUSTOMER BENEFITS

- International market access
- Customers can focus on building their markets while Landbell Group solves the regulatory headaches
- Single point of contact for compliance in multiple jurisdictions

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
