

## ENVIRONMENTAL COMPLIANCE – COST MANAGEMENT

Extended producer responsibility (EPR) obliges producers to take financial and/or physical responsibility for the treatment and disposal of post-consumer products. Costs associated with EPR legislation are significant and can be a barrier to market entry and put companies at a competitive disadvantage, if not managed closely.

### OUR SERVICES

**Data review:** Health check on existing datasets

**Benchmark compliance schemes:** To achieve best value and leverage customer scale where possible

**Scope products/packaging:** Full review of products to ensure correct classification and report only that which is in scope

**Central invoicing:** Manage customer scheme invoices centrally where possible to ensure tight financial controls

**Circular economy feedback:** Identify packaging materials and products with lower scheme pricing; quantify the benefits and feed into the design/product development stage

### OUR EXPERTISE

- Understanding of best practice data management strategies
- Extensive knowledge of compliance scheme market, available options and pricing
- Large team of technical experts to ensure correct scoping and invoicing

### PROCEDURES

#### DATA REVIEW

- Implement data 'first aid' to reduce uplifts and enable reporting under lower price compliance options

#### BENCHMARKING

- Regular scheduled benchmarking of compliance schemes

#### PRODUCT/PACKAGING REVIEW

- Ensure correct classification of products
- Ensure only products in scope are reported
- Identify packaging materials and products with lower scheme pricing
- Propose benefits to the design/product development stage

### CUSTOMER BENEFITS

- Identify cost reduction possibilities
- Support client business expansion without proportionate increase in the cost of compliance
- Help companies to actively manage their WEEE/Battery/Packaging compliance costs

# LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

## SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

## BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

## THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

### TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

### CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

### CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

### SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
