

ENVIRONMENTAL COMPLIANCE – REGULATORY TRACKING

Extended Producer Responsibility (EPR) is strictly regulated in Europe for waste electronics, batteries and packaging. While the requirements are based on European directives, they still differ at national level and are constantly changing. In addition, more and more countries are following Europe's regulatory approach, making the challenge global.

Landbell Group closely tracks developments and keeps customers aware of the latest obligations across a growing number of territories.

OUR SERVICES

- At a Glance reports listing core EPR obligations
- In Depth reports providing more detail on EPR obligations (At a Glance reports included)
- Customised reports are tailor made to the client's needs and product portfolio, and can include specific research into special countries
- Reports cover legal status and review obligations with regards to product design and marking, user information, and take-back (registration, reporting and available EPR options)
- Reports are available for WEEE, batteries and packaging and cover a growing number of countries (please contact us for the latest list)
- Reports are regularly reviewed (minimum frequency of 3 months)

OUR EXPERTISE

- Highly proficient team with extensive experience working for large multinationals
- Unrivalled operational experience: Landbell Group runs more approved EPR schemes than any other organisation globally for WEEE, batteries and packaging
- Dedicated tracking tools and local experts
- Governmental affairs activities ensure that Landbell Group customers and experts are kept up-to-date with regulatory and policy developments

PROCEDURES

- Producing reports
- Researching customer needs
- Follow-up consultancy to implement appropriate and cost-effective compliance processes

CUSTOMER BENEFITS

- At a Glance reports quickly bring customers up to speed with all EPR obligations
- In Depth reports explain how to comply and make qualified decisions
- Customised reports address specific needs
- Regulatory tracking helps to safeguard market access, legal compliance and brand protection
- Monitoring regulatory requirements, and identifying obligations and compliance options, frees up customer resources

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
