

## SMART SUSTAINABLE SUPPLY CHAINS – CLOSED LOOP RECYCLING

Producers, manufacturers and distributors are confronted with increasingly complex extended producer responsibility obligations. This is especially true for international companies that need to comply with different legal requirements in their respective markets. LANDBELL GROUP offers tailored consultancy services that best address the needs of each organisation in alignment with their circular economy strategy. We support organisations seeking to gain and retain knowledge and expertise in end-of-life projects and supply chain circularity. EEE producers who want to enhance product sustainability by reintroducing recycled materials into their products, or companies that want to gain end-of-life supply chain control can also make use of our various consultancy services.

### OUR SERVICES

**EPEAT verification:** Supporting producers to fulfil EPEAT criteria including communication with the relevant EPEAT bodies on behalf of the producer

**Supply chain audit programs:** Providing audit programs that ensure supply chain security, visibility and sustainability and that are driven by customers' needs and requirements

**Closed loop recycling projects:** Managing projects for the usage of fractions resulting from waste management processes as a resource in new products, minimising the consumption of primary resources and the costs of raw materials, as well as promoting eco-design initiatives

**Technical consultancy:** Providing a broad range of technical studies and consulting services to support the development and implementation of circular economy strategies

### OUR EXPERTISE

- Worldwide, multi-disciplinary and multi-lingual team of consultants: experts in EPR, eco-design, waste recycling, logistics, quality management and auditing
- 50 qualified auditors, speaking 20+ languages
- Own WEEE and Waste Batteries treatment standards in place for over 10 years.
- Extensive experience in waste management audits (over 1,700 on-site audits and follow-up of over 5,500 non-conformities)
- TS.EW.001 (Technical and Management Requirements for WEEE) recognized as a compatible audit standard to fulfil EPEAT end-of-life requirements for PCs and Display equipment (IEEE 1680.1)
- Audited and EPEAT-compliant recycling network of more than 34 recycling providers, up to final destination, in 9 EU countries
- 6 years of experience in conducting end-of-life supply chain field studies

### PROCEDURES

#### GENERAL

- Project management approach with a single point of contact for the customer
- Adapted IT systems and tools

#### DIAGNOSTICS & ANALYSIS

- High-level requirements
- Gap analysis and customization
- Risk management

- Process engineering and re-engineering
- Functional and technical documentation

#### IMPLEMENTATION SUPPORT

- Resources qualification
- Engagement and training
- Outsourcing

#### MONITORING & IMPROVEMENT

- Measurement of process efficiency and effectiveness
- Improvements follow-up

### CUSTOMER BENEFITS

Tailored and dedicated consultancy projects that:

- Proactively address supply chain risk
- Raise sustainability awareness in the supply chain
- Enhance product environmental performance
- Boost circular economy related innovations

# LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

## SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

## BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

## THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

### TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

### CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

### CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

### SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
