

ELECTRICAL AND ELECTRONIC EQUIPMENT

Waste generated by the electrical and electronic equipment (EEE) industry, including packaging, is a complex mixture of materials and components. If not properly managed, it may cause collection and treatment inefficiency as well as penalties for EEE manufacturers. We support multinational producers and distributors of EEE by providing take-back services to their customers. We also support worldwide companies that use EEE in their service provision and international organizations that need harmonized waste management.

OUR SERVICES

Consultancy: Optimized take-back solutions for customers' individual needs

Website design & management: Dedicated websites for take-back programmes

Global reverse supply chains: Comprehensive reverse logistics management - anywhere in the world

Recall programs: Effective return of defective, non-compliant or unsafe products

Recycler auditing: Approved audit programs, including support for producers to achieve EPEAT Gold labels

Cloud-based Track&Trace IT with compliance reporting: Traceable, easy-to-use declaration and reporting tools which comply with all applicable regulations

Parcel service: Simple collection of small quantities

One-stop-shop: One team delivering take-back, consulting and IT solutions

OUR EXPERTISE

- Market-leading experience (providing take-back solutions to 4 of the 6 largest IT manufacturers)
- Unbeatable knowledge of local and international waste and transport regulations
- Major operating network (350+ suppliers in more than 50 countries)
- Unique added value from our own recycling standard and operating network, and IT system

PROCEDURES

COLLECTION

- Electrical and electronic products with all related consumables and packaging
- Pickups from companies and organizations, production sites, distribution and repair centres, retailers, drop-off points and end-consumers
- Loose, parcels, pallets, pallet cages, skips, containers, full truck loads

TRANSPORTATION

- Domestic or international in compliance with all applicable regulations

TREATMENT

- Approved treatment sites audited to defined recycling standards

CUSTOMER BENEFITS

Delivering your circular economy initiatives

Meeting your extended producer responsibility obligations

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
