

## ENVIRONMENTAL COMPLIANCE – DATA SERVICES

Costs associated with extended producer responsibility (EPR) legislation are significant and can be a barrier to market entry. If not managed closely, it can put companies at a competitive disadvantage. Data transformation, processing and classification ensure the production of accurate EPR reports, which ensure that companies stay compliant and help to reduce costs.

### OUR SERVICES

- Transform customer's data into the correct format for reporting to EPR schemes in each market
- Populate compliance scheme reporting forms in accordance with the local rules and guidelines in each country
- Support with appropriate categorisation and classification of customer's product portfolio
- Production of customised customer reports, for example, compliance cost reports by country and waste stream
- Dedicated site for secure, online exchange of data

### OUR EXPERTISE

- Detailed knowledge of scheme rules and reporting categories in all markets with EPR regimes
- A dedicated data team with experience of working with complex data sets
- A track record of delivering data projects for a large number of multinational clients
- Secure data transfer protocols

### PROCEDURES

#### CUSTOMER REVIEWS

- Carrying out full reviews of customer datasets with written methodology for managing data and reporting in each market

#### DATA MANAGEMENT

- Providing data services managed by our dedicated data service centre in conjunction with our compliance experts
- Providing data services in all markets with existing EPR regimes and in new markets where EPR legislation is coming into force

#### DATA SUBMISSION

- Ensuring accurate WEEE/Battery/Packaging reports that can be submitted in each country

### CUSTOMER BENEFITS

Services in all markets with existing EPR regimes, including EMEA, USA, Canada and Australia

Services in new markets where EPR legislation is coming into force

Accurate WEEE/Battery/Packaging reports

Reduced risk from regulator and scheme audits

# LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

## SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

## BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

## THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

### TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

### CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

### CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

### SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
