

IT EQUIPMENT

Waste regulations and the protection of sensitive data have a critical impact on effective End-of-Life (EoL) IT asset management. Our specialized services help producers maximise their offer to professional customers. We also support multinational companies and organisations in implementing consistent end-of-life asset management that is compliant with waste and data protection regulations.

OUR SERVICES

Classification as product or waste: Classification of EoL assets as “products” or “waste” to ensure compliance with national and international regulations

EoL asset management cycle: Collection, treatment and re-marketing of complete units or components

Serial number scanning: Control of serial numbers to meet customer inventory procedures or to confirm the destruction of specific units

Data wiping: Wiping of sensitive and personal data that is compliant with recognized standards and customer specifications

One-stop-shop: Delivering take-back, consulting and IT solutions from a single source

OUR EXPERTISE

- A single provider with a global solution, consolidating a network of EoL asset management companies and waste management suppliers able to provide a full range of services
- Legal assessment of product or waste classification with local consultants and legal advisors
- Over 50 external auditors monitoring treatment sites to prevent trading of EoL equipment before proper treatment takes place

PROCEDURES

COLLECTION

- Inoperable, obsolete or decommissioned IT equipment and components (Desktop PCs, Laptops, Mobile Phones, HDD, etc.)
- Pick-ups from organisations with worldwide offices and locations
- Flexible quantity: from small numbers of units to full truck loads

TRANSPORTATION

- Domestically and cross-border in compliance with all applicable transport regulations

TREATMENT

- Controlled treatment sites audited to defined standards to prevent uncontrolled trading of units and illegal waste export

CUSTOMER BENEFITS

Re-marketing of obsolete IT equipment while ensuring consistent implementation of corporate standards and compliance with national regulations

Maximising service provisions to professional customers for producers

Implementing consistent end-of-life asset management, which is compliant with waste and data protection regulations, for multinational companies

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
