

SMART SUSTAINABLE SUPPLY CHAINS – CONSULTING

Managing end-of-life (EoL) operations ensures greater supply chain security, visibility, transparency and sustainability. Dedicated audit programmes and selected field studies carried out to the customer's requirements or to our own specifications provide the necessary flexibility to meet the new challenges of the circular economy.

Landbell Group offers bespoke audit protocols, programmes and technical studies that are fully aligned with the needs of an organisation's circular economy strategy.

Our service helps participants within the EoL supply chain demonstrate their ranking and compliance with best-in-class requirements.

OUR SERVICES

Bespoke audit protocols and programmes: Helping producers fulfil their audit criteria within the EoL supply chain for various tiers of waste treatment

EoL supply chain transparency: Design of full treatment downstream operators' maps, to final destination, to provide traceability of dedicated waste streams

Mass balance and recyclability assessment: Evaluation of the input and output material from a waste treatment process, and assessment of the recycling and recovery rates, to understand the performance of that specific treatment process and the effectiveness of hazardous substance removal

EoL characterisation & brand studies: Providing a broad range of technical studies and consulting services to complete EoL information gaps

OUR EXPERTISE

- Own WEEE (TS.EW.001) and Waste Batteries (TS.EW.003) treatment standards in place for over 10 years
- Extensive experience in waste management audits (over 1,700 on-site audits with follow-up of over 5,500 non-conformities)
- 50 qualified auditors, speaking 20+ languages
- 7 years of experience in conducting EoL supply chain field studies for international producers

PROCEDURES

DESIGN AND DEVELOPMENT

- Technical documentation and protocols
- Project management approach with a single point of contact for the customer
- Pilot test running

PLANNING AND PREPARATION

- User-friendly IT platform for audit scheduling
- Auditor onboarding
- Auditor qualification and training

IMPLEMENTATION AND CONTROL

- Completion of audits and field studies as per plan
- Auditor performance evaluation
- Non-conformities and improvements follow-up

MONITORING AND IMPROVEMENT

- Simple IT platform for audit reports and document sharing
- Dashboards with supplier ranking and rating
- Field studies - reports and KPIs

CUSTOMER BENEFITS

Tailored and dedicated audit protocols, programmes and field studies that:

Proactively address supply chain risks

Raise sustainability awareness in the supply chain

Track and indicate the performance of the supply chain

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
