

SECURE DESTRUCTION

To uphold brand reputation and manage product liabilities, producers must avoid selling rejected, expired or unwanted items on secondary markets, and personal and sensitive data must be securely destroyed. We support producers of EEE in ensuring strict production and distribution controls, and secure the safe destruction of data globally for multinational companies.

OUR SERVICES

On-site destruction: Appropriate on-site destruction methods, specifically tailored to each product type

Collection: Global collection of IT equipment containing sensitive data

Secure reverse-chain logistics: Take-back of any faulty, decommissioned and obsolete products using sealed transportation and GPS vehicle-tracking

Product destruction: Certified product destruction including CCTV monitored or witnessed destruction according to national and international standards or customer specifications

Data destruction: Assurance of sensitive and personal data destruction

OUR EXPERTISE

- Global collection of IT equipment containing sensitive data
- Destruction of prototypes, luxury goods and components for major brands
- On-site dismantling and destruction of HDD drives, including serial number tracking
- Customized on-site witnessed destruction and auditing

PROCEDURES

COLLECTION

- Products, obsolete products and media (HDD, laptops) with confidential data that must be securely destroyed
- Pick-ups from organisations, production sites, distribution and repair centres, and retailers
- In sealed packages/containers or on-site destruction

TRANSPORTATION

- Secured transportation, consolidation and storage

TREATMENT

- Applying customer-specific destruction protocols at audited treatment sites under CCTV supervision or with customer or 3rd party witnessed destruction

CUSTOMER BENEFITS

Protection of brand reputation and know-how, as well as personal and other sensitive data

Prevention of unintended leakage to grey markets

LANDBELL GROUP

Landbell Group is an international supplier of service and consulting solutions for environmental and chemical compliance. With 25,000 customers in over 34 countries, we are present on four continents and employ over 270 people worldwide. Our aim is to reduce the complexity of extended producer responsibility legislation, as well as other product- and packaging-related requirements for producers and distributors. In everything we do, we seek to provide our customers with the most competitive solutions in terms of service quality, compliance and cost.

At Landbell Group, we prepare our clients for the uncertainties ahead. We help them unlock the value of the circular economy and strive to be their best partner on the journey to a more sustainable future. We do this by:

SIMPLIFYING

Our expertise and experience strip away complexity. We provide comprehensive and customer-focused solutions so our clients can focus on their core business.

BEING HOLISTIC

Our strong brands and comprehensive services combine to build integrated solutions. We think globally and act locally to build integrated solutions that tackle challenges effectively.

THINKING AHEAD

Our approach is innovative and entrepreneurial. With our pioneering heritage, we do not shy away from innovation and seek to challenge the status quo to drive change.

Landbell Group offers products and services in four key areas: take-back, chemical compliance, consulting services and software. We provide our customers with the widest range of solutions, so that they can focus on their core business and make the most of their resources.

TAKE-BACK:

Our take-back solutions address the complex product and packaging waste regulations faced by manufacturers and distributors internationally.

Worldwide, Landbell Group operates 35 take-back schemes and offers reliable, multinational services to all customers.

CONSULTING:

Our consulting services cover the whole range of chemical and environmental regulations, as well as other related legislation.

We support our clients' strategic goals by deriving the maximum value from sustainable business models linked to the circular economy.

CHEMICAL:

Our chemical regulatory solutions support company compliance, ensure market access and safeguard competitive advantage.

SOFTWARE:

Our software solutions reduce the growing financial and environmental demands on customers.

Efficient, secure and cost-effective, these solutions drive process efficiencies and factor in local regulations, language and currency to develop future-proof platforms.
