

CHEMICAL COMPLIANCE AND STEWARDSHIP SERVICES IN NORTH AMERICA

Product and chemical regulatory services

- Market access and product introductions
- Strategic analysis and advice
- Regulatory assessments and submissions in the US and Canada (TSCA, CEPA)
- California Proposition 65 and Right to Know law support
- Product safety and labelling assessments
- Exposure and risk assessment
- Industrial hygiene support
- GHS, US and Canadian SDS, labelling, and hazard communication
- Chemical management and reporting
- Product stewardship, compliance, and sustainability
- Supplier communication
- Banned and restricted substance management

How can we help

Our broad range of services are implemented seamlessly through hands-on project management and enhanced client engagement in the regulatory process:

- Project management for North American, European, and Rest of World regulatory requirements
- Compliance checks and gap assessments for monitoring and improvements
- Strategic planning for adapting to new regulatory requirements and developments

- Assistance with regulatory implementation and submissions
- Adapted IT systems and tools as part of a bespoke regulatory compliance platform

Customer benefits

Our tailored and dedicated consultancy services:

- Create sustainable compliance strategies
- Proactively address supply chain risk
- Streamline market access for products
- Enhance chemical compliance in North America and internationally
- Minimise the time, testing, and resources needed to bring a new chemical to market
- Future-proof product portfolios in anticipation of changes to the regulatory landscape
- Support product compliance and sustainability

Expertise

- Project management
- Hazard, exposure, and risk assessment in line with relevant government standards
- element1™: our own bespoke software solution enhances productivity and creates sustainable compliance processes
- Market access and product stewardship solutions to ensure product safety and proactive compliance

About us

Landbell Group is a leading global supplier of environmental and chemical compliance services, which helps companies to carry out their extended producer responsibility (EPR) obligations.

With customers in many countries, and colleagues based all over the world, we are a global platform for EPR.

Our unique approach

- An international team and network of compliance experts combine unrivalled operational expertise with consulting competence
- We run more approved EPR schemes than any other organisation globally
- We offer international support for EPR and chemical regulations, as well as software solutions for efficient compliance management processes
- Our global takeback programmes collect products anywhere
