

CIRCULAR E-MOBILITY: OUR GLOBAL SOLUTION FOR SIMPLIFIED WASTE MANAGEMENT

Designed to centralise e-mobility waste management and recycling

Operating e-mobility business, such as scooters, in many cities brings challenges regarding waste management and staying fully compliant with the latest obligations for e-waste and lithium-ion batteries recycling.

Our service offers centralised and digitalised management of global waste operations with full visibility in one, user-friendly platform.

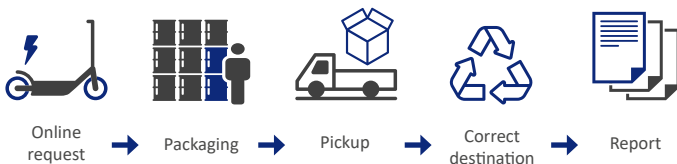

Packaging, logistics and recycling together

CIRCULAR E-MOBILITY is a comprehensive solution for sustainable operation of e-mobility business, and it highlights your commitment to sustainability.

The service allows for quick expansion to different countries and regions to follow the rapid growth and challenges of this market.

We provide you with packaging to guarantee the correct management and transportation of e-waste and lithium-ion batteries waste - to prevent risk for users and employees.

How does it work?

Customer benefits

CIRCULAR E-MOBILITY has the following features:

- Friendly web-based interface for fleet managers to request waste management services
- Supply of packaging
- Single point of contact for global recycling operations
- Fully compliant logistics and recycling network in each country
- Letters of support for RFP/municipal tenders

Expertise

Landbell Group operates an active recycling network of 300+ partners.

Its unique expertise is based on 15+ years managing international takeback activities for end-of-life electronic devices.

Landbell Group's global takeback team comprises multi-lingual experts in operations, supply chain, customer support, audits, environmental compliance, and reporting.

About us

Landbell Group is a leading global supplier of environmental and chemical compliance services, which helps companies to carry out their extended producer responsibility (EPR) obligations.

With customers in many countries, and colleagues based all over the world, we are a global platform for EPR.

Our unique approach

- An international team and network of compliance experts combine unrivalled operational expertise with consulting competence
- We run more approved EPR schemes than any other organisation globally
- We offer international support for EPR and chemical regulations, as well as software solutions for efficient compliance management processes
- Our global takeback programmes collect products anywhere
