

# MEET S3: SMART AND SUSTAINABLE SUPPLY CHAINS

## Greater end-of-life (EoL) supply chain transparency and sustainability

S3 offers bespoke EoL audit protocols, programmes, and technical studies to meet customers' requirements or our own specifications. S3 provides the necessary flexibility to meet the new challenges of circular economy initiatives.

Our broad range of services also helps participants within the EoL supply chain to demonstrate their compliance with best-in-class requirements and complete information gaps.

Supporting EEE producers

Bespoke audit programmes

Product & battery takeback

Recycling & repair assessment

## What does our service offer?

- Supporting producers of electrical and electronic equipment (EEE) to achieve EoL management to the Electronic Product Environmental Assessment Tool (EPEAT) reference standards for their selected products:
  - Provision of product takeback
  - Provision of rechargeable battery takeback
  - EoL processing: chain of custody and audits
- Bespoke audit protocols and programmes
- EoL processing of field studies and tests
- Recyclability and repairability assessments

## Customer benefits

- Access to a high level of expertise and professional experience
- Objective and independent analysis
- Proactive management of reverse supply chain risk
- Traceability for EoL supply chain performance
- Increased EoL supply chain transparency
- Raising awareness of sustainability in the EoL supply chain
- Enhanced product environmental performance

## Expertise

- 15+ years designing and managing EoL supply chains
- Own e-waste and waste batteries treatment standards in place for 13+ years
- Extensive experience in waste management audits. To date:
  - 1,900+ audits conducted
  - 6,000+ non-conformities followed-up
- 50 qualified auditors, speaking 20+ languages
- 9+ years experience in conducting EoL supply chain field studies for international producers

### About us

Landbell Group is a leading global supplier of environmental and chemical compliance services, which helps companies to carry out their extended producer responsibility (EPR) obligations.

With customers in many countries, and colleagues based all over the world, we are a global platform for EPR.

### Our unique approach

- An international team and network of compliance experts combine unrivalled operational expertise with consulting competence
- We run more approved EPR schemes than any other organisation globally
- We offer international support for EPR and chemical regulations, as well as software solutions for efficient compliance management processes
- Our global takeback programmes collect products anywhere
